

**AdBlue®4you**

## Technical Datasheet

### SMART IBC Pump PRO

#### DESCRIPTION

The SMART IBC Pump Pro is a dry self priming AdBlue® pump specially designed for using on an AdBlue® 1000 LTR-IBC and when using the optional DRUM plate also on an AdBlue® DRUM.

This AdBlue® pump delivers a flow of 35 liters per minute.

#### DIMENSIONS

Size LxWxH	50x40x36 cm
Weight	14 KG
Hose length to nozzle	6 mtr, AdBlue certified heavy duty delivery hose
Hose length to drum	1,5 mtr, AdBlue certified heavy duty delivery hose

#### PERFORMANCE

Pumping capacity	35 Liter/min
Flow meter	No

#### POWER SUPPLY

Input voltage	230 volt, 1Ph, 50Hz
Power consumption	330 Watt
Input current	1,1 Amp With built-in overload protector with automatic reset.

#### TECHNICAL DETAILS

Materials	Pump: PA 66 reinforced plastic Moving components: PA66 or Viton Mounting plate: Stainless steel Screws: Stainless steel
Insulation Class	F
Protection class	IP54
Nozzle	Automatic nozzle
IBC connection	SEC quick turn connector for CDS suction tube
Hose tail	Stainless steel hose tail connection

#### WARRANTY

Warranty	1 year, on pump and flow meter. *Optional is 2 years warranty
