Construction Material	Polyethylene
Code	3P-9000382

Description

Real wooden shingles and Nordic spruce were the inspiration for this truly unique rainwater tank.

Due to its slim form and the small footprint, there will be space for it in the even smallest garden. It has a volume of 230) and a height of 1300mm it blends in well next to garden sheds or alongside lap panel fencing.

The use of good quality, weather proofed PE results in a very natural looking tank, with a highly realistic wood-effect finish.

There are 3 connection points on this water butt. Each connection is a 3/4" BSP Brass Threaded Port, one port is used for a tap connector and the other 2 can be used for interconnection or as a drain.

This Water Butt comes with a Kit that includes:

- 3/4" Brass Tap
- Wall Fixing Bracket
- Screws

Can be supplied with the 3P Filter Collector Universal for filling with rainwater from your down pipe.

The typical lead time for this product is 3 - 5 working days.
