

GRP Open Top Tanks

This open top tank is manufactured from Glass Reinforced Plastic (GRP) making it extremely tough and durable. The tank offers excellent stability, low weight and is highly resistant to corrosion.

Features:

- Available in a wide range of capacities
- Smooth interior for easy cleaning
- UV resistant and corrosion resistant
- Chemical resistant
- Stackable when not in use
- Available in a choice of colours
- Wide range of optional extras available including lids, wheeled frames and outlets
